MISSOURI

Let's Talk About It!

HEALTH CARE REFORM **A Town Hall in St. Joseph**

Whether you call it the **Affordable Care Act** or **Obamacare**, and whether you like some parts of it or none of it, **the federal health care reform law is already impacting Missourians.**

Missourians, like most Americans, are confused and conflicted about the law. Most of us just want straight answers.

How does this law affect me and my family?
What are my rights under the law?
How will it impact my small business or the company where I work?
Will rural areas suffer or be helped by the law?

Get answers to these questions and more at a non-partisan Town Hall Meeting, sponsored by the Missouri Foundation for Health. A brief presentation will be followed by an open discussion and questions from the audience.

Please join us – we want to hear your concerns and questions.

Tuesday, April 26 at 7:00 p.m.
Benton High School Auditorium
5655 South 4th Street in St. Joseph

Refreshments provided. Space is limited; **please RSVP** to attend:
